

**Prices of essential commodities *vis-a-vis* futures trading**

3235. SHRI MOTIUR RAHMAN: Will the Minister of CONSUMER AFFAIRS, FOOD AND PUBLIC DISTRIBUTION be pleased to state:

- (a) whether due to grant of permission to undertake forward/futures trading in wheat, pulses and other foodgrain items, their prices skyrocketed in the retail market; and
- (b) the details of prevailing rate of these items during 2005-06 and 2006-07?

THE MINISTER OF STATE IN THE MINISTRY OF CONSUMER AFFAIRS, FOOD AND PUBLIC DISTRIBUTION (SHRI KANTILAL BHURIA): (a) Futures markets provide an efficient platform for price discovery of commodities and price risk management so that producers, exporters, consumers etc. can take informed decisions about production, sale and purchase of commodities. Forward trading in commodities is regulated by the Forward Markets Commission (FMC) under the provisions of Forward Contracts (Regulation) Act, 1952. The main reasons for the increase in prices of wheat, pulses and other foodgrain items are shortfall in domestic supplies relative to demand and hardening of international prices.

In the context of discussion regarding whether and to what extent futures trading has contributed to price rise in agricultural commodities in recent times, the Government has set up an Expert Committee on 2/3/07 under the Chairmanship of Professor Abhijit Sen, Member, Planning Commission to study, *inter alia*, the extent of impact, if any, of futures trading on wholesale and retail prices of agricultural commodities.

(b) The details of prevailing retail prices of wheat, pulses and Rice during the year 2005-06 and 2006-07 are given at Statement I and Statement IS respectively.
